Association Recognition / Award of Merit Certificates

OSCIA has a certificate to acknowledge the recipient for his/her contribution to the Association and the advancement of crop production. These certificates can be customized to suit the need and are used at both the local and provincial level.

OSCIA Soil and Water Conservation Farm Signs

The local associations have an opportunity to provide a Soil and Water Conservation Farm gate sign to farmers with a commitment to good soil management on their farms. These practices include controlling soil erosion, maintaining crop productivity, and protecting water resources.

Recipients are chosen at the local level and metal farm gate signs (5"x16") can be obtained by contacting the OSCIA provincial office. A modest cost will apply to recover production costs.
